ABOUT ME

Aspiring Data Science Engineer with a strong academic foundation in Computer Science Engineering, currently pursuing a B.Tech at the Institute of Technical Education and Research (ITER), Siksha 'O' Anusandhan University, Bhubaneswar. Passionate about leveraging data to uncover insights, drive innovation, and create impactful tech solutions. Enthusiastic about continuous learning and developing hands-on skills in data analysis, machine learning, and emerging technologies. Known for a growth mindset, problem-solving abilities, and a keen interest in blending innovation with technology to address real-world challenges.

EDUCATION

2024 – Present

SOA University(ITER),
Bhubaneswar,Odisha

B.Tech in Computer Science and Specialization in Data Science

- Coursework in Data Structures, Algorithms, Machine Learning, and Big Data Analytics
- Developing projects and solutions that blend innovation with impactful technology

2022 - 2024

LSPS,
Rayagada, Odisha

Higher Secondary

Studied core subjects in Science with a focus on Mathematics and Computer Science. Built foundational knowledge in programming, logical reasoning, and data handling. Participated actively in science fairs and coding workshops.

2022

LSPS,
Rayagada, Odisha

Marticulation

Completed secondary education with distinction. Demonstrated strong academic performance and interest in STEM subjects. Awarded for excellence in computer applications and mathematics.

EXPERIENCE

Summer 2024

Deloitte, HYD

Data Science Intern

Worked with the analytics team to collect, clean, and analyze large datasets for business intelligence. Gained hands-on experience in data wrangling, feature engineering, and building predictive models using Python and SQL. Presented insights to team leads for strategic decision-making.

2018 - 2023

Cyberfare Team, LSPS

Web Designer and Content Head

Led website design and content creation for the school's tech club. Designed user-friendly web pages using HTML, CSS, and basic JavaScript. Managed and edited blog posts and articles to promote student-led innovation projects and tech awareness.
