

NeuraFlow AI

Transforming Businesses with Artificial Intelligence

Official Platform Documentation & Architecture Guide | 2026 Edition

1. Executive Summary

NeuraFlow AI is an award-winning, production-grade enterprise platform designed to showcase cutting-edge artificial intelligence solutions for modern businesses. Built with a futuristic SaaS aesthetic inspired by Linear, Stripe, Apple, and OpenAI, NeuraFlow AI combines high performance, zero-trust security, and deep interactivity.

Live Production URL: <https://neuraflow-ai-rho.vercel.app>
GitHub Repository: <https://github.com/anweshagartia13/anweshagartia13.github.io>

2. Technology Stack & Frameworks

Framework: React 18 + Vite 5 (Fast HMR & Optimized Production Bundling)
Styling: Tailwind CSS v3 + Custom CSS Glassmorphism & Radial Gradients
Animations: Framer Motion + Canvas Particle Engine + Canvas Confetti
Icons: Lucide React Icons (Modern SVG Iconography)
Deployment: Vercel Global Edge Network (99.99% Uptime SLA)

3. Detailed Pages & Architecture Breakdown

- 1. Home Page (/home)**
Hero section with live typing effect, interactive neural node animation, partner logos ribbon, live counters (\$140M+ client cost saved), features grid, service preview, and case study video demo modal.
- 2. About Page (/about)**
Company story, mission, vision, 4 core values, interactive company timeline (2020-2026), executive leadership cards with bios/socials, and industry awards.
- 3. Services Page (/services)**
8 interactive service cards (AI Chatbots, ML Models, Computer Vision, NLP, Predictive Analytics, Automation, Consulting, Cloud AI) with technical blueprint modals.
- 4. Portfolio Page (/portfolio)**
Filterable commercial case studies across Healthcare, FinTech, Retail, AgriTech, and Enterprise with quantified ROI impact metrics.
- 5. Pricing Page (/pricing)**
Monthly vs Annual billing toggle (20% discount), Starter (\$2,999/mo), Professional (\$7,499/mo), Enterprise tiers, detailed feature matrix, and interactive ROI Calculator.

6. Testimonials Page (/testimonials)

Sector-filterable 5-star customer reviews, customer photos, and security compliance badges (SOC2 Type II, ISO 27001, GDPR).

7. Blog Page (/blog)

6 AI research articles with category filters, search bar, author metadata, and full article reader modal.

8. FAQ Page (/faq)

12 categorized accordion questions covering Security, SLAs, On-Premise deployment, Pricing, and IP ownership.

9. Contact Page (/contact)

Consultation request form with validation/confetti, global office hub selector (SF, London, Tokyo, Singapore), and interactive map representation.

10. Careers Page (/careers)

Open job positions (AI Researcher, MLOps Engineer, Full-Stack Engineer, Product Designer) with application modal.

11. Privacy Policy (/privacy)

Legal terms detailing Zero-Data Training guarantees, SOC2 encryption, data retention, and GDPR rights.

12. Terms & Conditions (/terms)

Commercial agreement covering 100% IP model weight ownership, SLAs, and acceptable use.

13. 404 Page (/404)

Futuristic diagnostic terminal readout with quick redirect controls.

4. Interactive & Bonus Features

Floating AI Chatbot (NeuraBot):	Interactive assistant with real-time prompt suggestions and simulated intelligent responses.
Enterprise Brochure Download:	Form modal that generates and downloads the 2026 NeuraFlow AI Enterprise Whitepaper PDF/text file.
Interactive ROI Calculator:	Dynamic calculator allowing visitors to estimate annual cost and hour savings based on team size.
Cookie Consent Banner:	Glassmorphic banner with customizable analytics and privacy settings.
SEO & Telemetry:	Full OpenGraph meta, Twitter Cards, JSON-LD structured data, robots.txt, and sitemap.xml.
